Doug

I am forwarding the email DOJ sent to the State re: the Settlement Framework for the meeting on Monday, May 14th. The EPA/DOJ case team is meeting with the State this afternoon. I will provide an update following the meeting.

Hi, Meg:

Please find attached the draft settlement framework documents. Jeff W. sent these directly to Laura a few minutes ago via message below. Please note that Jeff requested that these documents be kept between the State and Federal government.

We can talk all this through tomorrow when we sit down.

Thanks, Meg. Have a nice evening.

Kate

Confidential - Do Not Release - Settlement Communications - Subject to Confidentiality Agreement

Laura,

As discussed, attached are the draft documents that we wanted to share with the State of Colorado ahead of our conversation on Monday. The first document outlines a framework concept for our joint discussions with the city. The second document (addendum) provides

further details on some possible options for determining the scope of impacts and mitigation approaches. We are hopeful that these documents will help focus our discussion on Monday, as well as provide us with a starting point for subsequent discussions with the co-plaintiffs, and ultimately, with the city.

We would ask that these documents remain close-hold between the State of Colorado and the federal government (DOJ/EPA) at this point.

Thank you again for the state's partnership with us on this matter.

Best regards,
Jeff
